

Help design our JSP

Each Council attending the National Scout Jamboree produces a Jamboree Shoulder Patch (JSP). Each patch is unique to each Council and represents that Council's Scouts and Scouters. Here is an opportunity to design our JSP.

The patch should symbolize the Sioux Council and the Scouts from the Jamboree Troop, below are pictures of what the past three JSP's have looked like. The patch is limited to 5" x 2". It needs to have the fleur-de-lis, Sioux Council, 2010 National Jamboree, if you want the 2010 100th anniversary logo; there are limitations on where and how it is presented.

If we use a logo or trademark picture, we need to have that entities permission to use it. Be creative use the linked page for blank patch templates. Draw some designs and get to the troop leadership.
